LIST OF MOST COMPATIBLE DATES FOUND

For each potential date are given 6 elements: The compatibility % according to the entire questionnaire, and the compatibility % in each of the five parts of the questionnaire. In each element is given first the average and then within brackets first the percent of your expectations fulfilled by your date and then the percent to which you fulfill your date's expectations. The percents, of course, are on a scale of 0 to 100. The 2-way score (marked by "#") is an average in which double weight is given to the percent of fulfillment of your expectations. Listed are also the Education, and areas of Work/Study & Interests. The areas that are relevant to you are emphasized. Also, the list of questions most important to you in which your date fulfills your expectations, except in personality. **PAY ATTENTION: The list of questions gives the question's name and not its content, so it works also in the negative. For example, if you requested with high importance a mate that doesn't go to Discotheques, then Discotheques means she doesn't go. Questions in which your date fulfills options which you marked with higher priority, are emphasized.**
